Benkorp provides accounting and financial systems support for Congregations in the NSW Synod

UCAP is the Uniting Church Administration Package for Congregations

Benkorp designed and maintains the UCAP system, which is a unique setup of the datafile for use with MYOB and other package accounting systems. This is done in cooperation with UCA NSW Synod Uniting Resources.

A complete setup package for UCAP is available for Congregations which simplifies the installation of MYOB and enables you to be using MYOB without cumbersome technical requirements.

The UCAP package includes:

- MYOB software (optional)
- UCAP datafile
- UCAP User Manual, a comprehensive guide to the specific use of MYOB for a Congregation
- training at your church office or the treasurer's office
- free ongoing specialised support, as agreed with UR

The **UCAP website** is maintained by Benkorp to keep Treasurers & Congregations informed of:

- updates from Uniting Resources affecting the accounting,
- upgrades for MYOB especially as they affect Congregations and
- downloads for changes in the UCAP system (datafile) itself
- www.benkorp.com/ucap

Bookkeeping for Congregations

Benkorp can provide ongoing bookkeeping services for Congregations.

When the Congregation requires outside assistance for this, either short or long term, Benkorp can provide the service. It can be done at your church office or at the Benkorp office.

Contact our office for more information: Ph 1300 138 627, Email hello@benkorp.com

Managing your Congregation's finances

Benkorp provides practical training for treasurers and committees to help your team manage the finances better.

Using a workshop format we can teach your team and help them engage with the best practices for doing not only the accounts but especially managing, stewarding, the church's finances better.
